

ANZAC Range Update

SSAA NSW and SSAA Sydney Branch have been working closely together in a campaign to address the Commonwealth Government's attempt to permanently remove shooters from the ANZAC Rifle Range.

Representatives from both bodies formed a working group, and with the assistance of a consultant together with Robert Brown and Robert Borsak of the Shooters and Fishers Party have developed a targeted, well planned and timely strategy to achieve a suitable outcome.

Meetings have been held with politicians and senior Government representatives. A number of stakeholders have been identified and will continue to be approached and involved as required.

It is important that we continue to adopt a united approach and stick to our agreed strategy, as multiple agendas, mixed messages and internal disputes will endanger our likelihood of a successful outcome.

Diana Melham

Executive Director
